CLAIMS

1. Fire extinguishing apparatus having at least one indicating device mounted thereon to provide a clear indication as to the location of the apparatus.
2. Fire extinguishing apparatus according to claim 1, wherein the indicating device provides a visual and/or audio indication of the location of the apparatus.
3. Fire extinguishing apparatus according to claim 1, wherein the apparatus comprises a cylindrical body for storing fire-extinguishing material, a handle and a pin.
4. Fire extinguishing apparatus according to claim 3, wherein the, or at least one, indicating device is an LED.
5. Fire extinguishing apparatus according to claim 4, wherein the or each LED provides a colour that corresponds with a representative colour of the material contained within the extinguisher cylinder.
6. Fire extinguishing apparatus according to any one of claims 3 to 6, wherein the or one indicating device is mounted on, or in the immediate vicinity of, the pin.
7. Fire extinguishing apparatus according to claim 6, wherein an indicating device is mounted either side of the pin.
8. Fire extinguishing apparatus according to any one of claims 3 to 7, wherein at least one indicating device is mounted on a side surface of the extinguisher.

9

9. Fire extinguishing apparatus according to claim 8 wherein the or at least one indicating device is located near the base of the extinguisher.
10. Fire extinguishing apparatus according to any preceding claim, wherein the or at least one indicating device is an LED that is preferably in a position whereupon light is transmitted from the LED to a person in the vicinity of the extinguisher without obstruction.
11. Fire extinguishing apparatus according any one of claims 1 to 10, wherein the or at least one indicating device is an LED mounted on a strip.
12. Fire extinguishing apparatus according to claim 11, wherein the strip includes means to power the or each LED.
13. Fire extinguishing apparatus according to claim 11 or claim 12, wherein the strip is attached to the apparatus by an adhesive.
14. A stand for a fire extinguisher the stand having a surface not obstructed by the fire extinguisher located on the stand in use, the surface having at least one indicating device mounted thereon to provide a clear indication as to the location of the fire extinguisher stand.
15. Fire extinguishing apparatus substantially as hereinbefore described and referred to in the accompanying drawings.
16. A stand substantially as hereinbefore described and referred to in the accompanying drawings.
